23. Problem: (use additional Sheets if necessary)
When setting up the new MSS database on g0acg01 in TS2, user used the bulk copy out script to extract relevant data from the MSS database on (old) g0mss21 database server. The conversion/operation resulted in overflow.errors and the bcp copy script failed.

24. Proposed Solution: (use additional sheets if necessary)
Deliver Patch_6A.07_MSS_ACCT_01 to all DAACs. Patch must be installed on top on Patch_6A.07_System.01.

25. Alternate Solution: (use additional sheets if necessary)
None

26. Consequences if Change(s) are not approved: (use additional sheets if necessary)
This is an unacceptable risk for OPS installation because the DAACs will not be able to transition the MSS database.

27. Justification for Emergency (If Block 15 is "Emergency"):
Needed for transition of modes to 6A07 at the DAACs.
